

# WÜSTHOF

## Grenadill Facts

**Name:** African Blackwood or Grenadill

Other names are: Mozambique Ebony or Mpingo.  
(but not belonging to the Ebony family)

## Properties:

- Extreme density
- Minimal porosity
- High resin content
- Highly insensitive to moisture
- Highly durable and stable
- Deep purple to brownish black colour
- Beautiful distinctive wood grain
- Environmental stable because of controlled harvesting

Technically and by appearance superior to Ebony and other hard woods.  
WÜSTHOF is using only the inner part of the stem, the heartwood.

# Quality - Made in Solingen/Germany
